THUNDER ProfiMaster 3000

The universal lift Thunder Profimaster 3000 is a mobile lifting solution which can be used single or in systems with 2 or 4 columns. The Thunder Profimaster can be used for lifting cars, off-road-cars and vans as well as for small busses. Especially for the car-body repair the Thunder Profimaster 3000 is a signifcant assistance. The vehicle can be lifted from the side, from the front or from the back to bring it in a position which allows an ergonomic working position while welding, grinding and painting works.

accessories

axle stand

body clamp

fork for tyres (included)

adapter for quads and motorbikes (adjustable)
