Thunder Profimaster 3000 Universal Lift is a mobile lifting solution, which can be used as single or in systems with 2 or 4 columns.

The Thunder Profimaster can be used for lifting Car, Off-road Car, Van, SUV, MUV and Small Bus.

The vehicle can be lifted

- From the side
- From the front
- From the back

to bring it in a position which allows an ergonomic working posture for all kinds of servicing and repair works.
